# About the Training

Sexual Assault Victim Advocates have unique and challenging roles. When someone is sexually assaulted and turns to an advocate for help that individual must be knowledgeable, compassionate, intuitive, responsive, and determined. The sexual assault advocate must have a strong grasp on the criminal justice process, the rape kit, statutes, compensation, and a myriad of other processes and protocols. There is a need to ensure that sexual assault victim advocates have the best training and support possible so that each one may provide the best quality of services to victims who at one of the most vulnerable and traumatic times in their lives. Together, the Indiana Criminal Justice Institute, Indiana Commission for Women, and Indiana Coalition Against Sexual Assault are offering the first of what we hope will become an ongoing process of training for sexual assault victim advocates. With a goal of improving and standardizing the procedures that sexual assault victim advocates follow, this training is a 5 day—comprehensive training program that will be an excellent program for advocates just starting out to the seasoned advocate. \* Upon completion of this training, advocates will have gained an understanding of their role and responsibilities. This training provides skill and knowledge building however, it remains the responsibility of each program running advocacy services to assess the ability of each individual to perform the required duties.

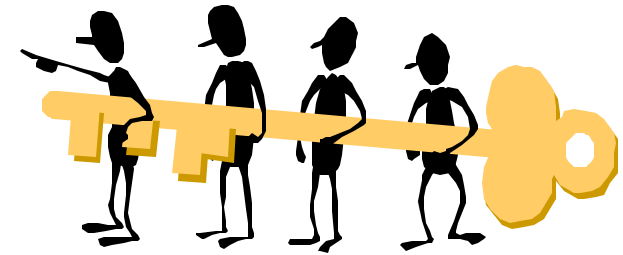

*Improving Indiana's Advocacy  
Response to victims of  
sexual violence*
